

## WHO WE ARE

Baupartner Group was founded in Ploiesti in 2006, with local business roots since the mid-1990s.

Baupartner is a group of service and investment companies active on the Romanian market in the fields of Design, Construction, Precast Elements, Real Estate & Development, Renewable Energy and breeds a high level of loyalty among their customers and business partners.

## CONSTRUCTION SERVICES

Baupartner Group's key of success is ensured by the high-efficiency of the project management and a committed team, always motivated to meet the needs of the clients, business partners and suppliers.

The excellent construction services are carried out at fast completion times and very competitive costs .

Our facility „Bauelemente“ for manufacturing high-class precast concrete elements and the in-house structural engineering team offer the possibility of great flexibility in customizing and accomplishing each client's expectations.

All this is strongly supported by a continuous improvement, using the latest technological advances and best management practices, which make the Baupartner Group remain at the cutting edge of the business execution in the Romanian landscape.

The nationwide reputation that we have worked hard to earn, proves that Baupartner Group is capable of exceeding the expectations placed on a modern, first-class construction company.

Let us convince you of our performance. We look forward to working together on future challenges.
